

Pricelist for SHOJI-Elements and accessories

Sliding Doors are always hand made and tailored .They are produced in our work shop as solid high quality work in accordance to your measures.

Every layout is different, so it is impossible to produce parts in advance. As individual as the layout is of course the price.

The price is depending basically on the amount of space covered by SHOJI-Elements. Important is the system, the kind of wood and the finish of the surface and last not least the installation. The following price list is just a survey. Important is the final price you will find on our quotation
